

ISO 9001-2015 & ISPS COMPLIANT PORT

MORMUGAO PORT TRUST, GOA
Serving the Nation since 1885
(Ministry of Shipping, Government of India)

SAGARMALA
PORT-LED PROSPERITY

Ref.: TM/289/2020/ 351

Date : 06.6.2020

CIRCULAR No.04/2020

Sub : **Deployment of Crane sets –reg.**

This is to inform that Mormugao Port being a major port falls under the essential category as per the Essential Services Maintenance Act 1968 and various government orders. Hence, the operations of the port must run unhindered so that Country's import and export is not affected.

However, it is observed that in recent times vessels operating in the port have faced shortage of crane sets due to non availability of the signalers and operators. The willful absenteeism of the signalers and operators without prior approval shall be viewed seriously and will be marked absent for such absenteeism. Further, they will not be paid salary for such absenteeism.

In order to ensure unhindered operations of the vessels, stevedores of the port are being authorized to arrange their crane operators for the shortfall in sets which port is not able to supply as per the Clause 11 of the Mormugao Port Trust (Licencing of Stevedores) Regulations, 2010.

This will be implemented with effect from 2nd shift of 06.06.2020 until further orders.

This issues with the approval of competent authority.

(Jerome Clement)
Sr. Dy. Traffic Manager
For TRAFFIC MANAGER

To,
President, Mormugao Steamers Agents Association
President, Mormugao Stevedore Association

Permitted the operator only when there is short supply of sets and if there is any deviation in the any of statutory rules and regulations, the permission will be revoked immediately without any notice.
