MORMUGAO PORT TRUST

CHIEF MECHANICAL ENGINEER

1. SCOPE OF WORK:-

Painting of 320 KVA generator set, fuel tank, acoustic enclosure and Exhaust Chimney.

The engine, alternator and fuel tank including all fabricated steelwork forming part of the emergency generator assembly and acoustic enclosure shall be painted with single coat of Red Oxide Primer paint of thickness 60 microns and then two coats of finish paint of grey colour each of 50 micron thickness.

The steel structural surface to be painted should be cleaned thoroughly and all foreign materials/rust adhering to the surface to be removed. The surface is to be primed with one coat of Red Oxide within 4 hrs after the cleaning. If this period of 4 hrs. is not observed due to any reasons whatsoever, the surfaces indicated should be cleaned again before the coat of primer is applied.

The exhaust pipe and chimney where exposed shall be cleaned thoroughly for any foreign materials/rust adhering to the surface. The surface is to be primed with one coat of Red Oxide within 4 hrs after the cleaning. If this period of 4 hrs. is not observed due to any reasons whatsoever, the surfaces indicated shall be cleaned again before the coat of primer is applied. The dry film thickness of 1 coat of primer shall not be less than 60 microns. Then the surface shall be painted with two coats of heatresistant aluminised silver paint each of 50 microns thickness.

Following specified brands of paints to be used

□ Red Oxide Primer– Berger Paint or equivalent Asian Paint, Jenson and Nicholson, Shalimar.

□ Finish paint – Berger Paint or equivalent Asian Paint, Jenson and Nicholson, Shalimar.

All primer (1coat) and finish coat (2 coats) shall have different shades for the purpose of distinguishing.
