</tr>
</tbody>
</table>

Observation:
The wrecks are seems to be more than 35 years old in the vicinity. The wrecks are MS built and scattered all around in the area of 35 mtrs X 35 mtrs. The wrecks are lying on the sandy seabed surface and resting on each other having a maximum vertical height of 05 mtrs. The plates are removed by underwater cutting in many places due to that the wreckage are in irregular shape. The visible plates are of different sizes the bigger plates are in size of 14 mtr Length X 3mtr Breadth, 12mtr Length X 2mtr B, 4mtr L X 3mtr B, 12 mtrs X 1.5 mtr, 9 mtrs L X 3 mtrs B. There are many small plates scattered in the area on the sea bed. Small pieces of wooden boat were also noticed or the sea bed area. Marine growth were also noticed on the wrecks.

Suggestion: The wreckage of the sunken vessel can be removed only by underwater cutting and floating crane barge to lift it.

A rough sketch of wrecks has also been attached for your reference.

Thanking you and assuring our best services at all times.

Yours faithfully,
For Aquatic Diving & Marine Services Co.
